**POWDER PLASTERS PURGATORY  
SNOW STRANDS VAIL VETERANS  
RENO RICHES SKIRT SKIERS**

## HEAD OF THE LIFTLINE

BY TANIA ANDRASKO

As Space City begins its 1983-1984 season, most of you are thinking SUMMER & FUN. But some of us, specifically your new executive committee, are already well into planning your winter activities for the coming ski year.

**John Cook** and the recently appointed Directors of Trips, **Dick Howard** and **Debbie Ball**, have been hard at work on plans for Space City's nineteenth ski season. In addition to the previously announced Texas Ski Council trips to Sun Valley for Texas Ski Week, Keystone, Crested Butte, Heavenly Valley and Breckenridge, strong consideration is being given to trips to Big Sky, Montana, Snowbird and Alta in Utah, a pre-Texas Ski Week race clinic, Aspen, Vail and a much-requested trip to Europe.

Keeping the response to our 1982-83 schedule of trips in mind, as well as the forecasted economic climate of Houston for 1983-84, one or two "Trips of Opportunity" (for want of a better name) or "Mystery" trips may be scheduled for the spring. For these we would wait to see what the snow conditions are, where the bargains are, and whether we still have more people desiring trips than space available on our permanent schedule.

For those of you not quite prepared to think about snow while our beautiful spring days are upon us, **Kay Broad** has organized an outstanding series of summer activities, including everything from a tubing trip, to scuba lessons, and our old mainstay, the Summer Bash. A reminder to newer members of the Club - we do not hold general meetings during the summer months - so be sure to come to the May meeting to sign up for summer activities, or contact the coordinators listed in the activity ads.

A change in our Standing Rules, made by the Board of Directors last year, is now in effect and concerns your membership renewal. The renewal period is now May 1-31 each year. This shortened, and earlier, renewal period solves several problems we have had in the past - a membership period that did not coincide with the April 30 fiscal year of the Club, cash-flow problems when lodging and air-fare deposits for ski trips are due in the summer, and **Sitzmarkes** continuing to be sent to non-renewing members throughout most of the summer, while new members coming from the wait-list had to wait until August to find out if they were in the Club.

**Glenn Bishop** reports a strong response thus far in the membership renewal forms, but we have a long way to go to see all 1400 of you back in the Club for 1983-84. Remember - if you wait until after May 31, you will have to pay an additional \$5 processing fee to get back into the Club, in addition to being put on the end of the wait-list.

Glenn also reports most of the applications received so far have included completed membership surveys. Please be sure to fill out this survey, as this is the first time in several years Space City has attempted to get a written, analyzable, response from the membership as to your interests in ski and non-ski activities and club operations.

Glenn is presently plugging away at inputting all of the new membership information into our new Apple computer, the purchase of which was approved by the Board of Directors on March 30.

Our thanks to the Computer Committee, **Ron Smith**, **Layna Adams** and **Jan Livingston**, for their research and recommendations. Glenn will be using the services of his new Data

Processing/Input Committee to complete the input process in a timely manner for the May 31 renewal deadline. So, GET THAT APPLICATION IN, NOW! Or - save 20c and bring it to the May 9 meeting.

Speaking of May 9 - although our past president, **Bruce Maughs**, absolved himself of any responsibility for the Follies, I would like to make sure you are all aware that, although the Follies will be performed within the 1983-84 fiscal year, they were assigned, designed and rehearsed during Bruce's tenure and their "R" rating (as stated by ET Productions, themselves) was awarded during that time.

In other words, I have no intention of taking responsibility, either! However, both Bruce and I are certain that **Keith Eastin** and **Gene Turboff**, this year's producer/directors, will make certain nothing in the Follies will go beyond the sensibilities of the average member of the Club.

Newly forming committees of special interest to me this year will be the Race Committee, Community Activities Committee, and a committee to produce a Policies and Procedures Handbook of Club operations. Work is presently being done on determining chairpeople who will start the organizational stages of these groups. If you have an interest in any of these committees, please contact me at my home phone number.

Finally, a word about volunteerism. The past year was another year of progress for Space City, accomplished through the work of our many outstanding volunteers, as listed elsewhere in this issue. Some provided a great deal of their time and talents, while others are just beginning to become involved in our organization.

We couldn't keep going without the help of all of you, no matter what

# GRITCH, GRITCH, GRITCH

Ever wonder what happens to the trip critiques you fill in? In this report I will highlight some of the most frequently mentioned comments of Texas Ski Week and other Council supported trips. They are as follows:

- Bigger is not necessarily better. While most participants enjoyed TSW, some missed the closeness other SCSC trips have afforded them.
- We need more verbal communication to participants in addition to the Council program hand-out; e.g., where do we meet, are we going as a group, how do we get there.
- Would like less emphasis on activities provided by TSC with exception of races.
- Would prefer more SCSC early evening get-togethers, but not in overcrowded condo, to become better acquainted with our own members, not people from other clubs we will never see again.
- A few of you would like a race team and trips for racers only.
- First-time skiers would like more attention given to their needs.
- It may be an understatement, but many of you feel we should not go to ski areas at semester or spring breaks.

These highlights are a summation of the improvement or comments section of the trip critiques that have been turned in as of this writing. This information will be very useful in planning future trips.

In my next report I will answer questions pertaining to all trips. -Eric Holm

## 30 SKIERS DID IT WITH BALLS

How can a game that uses words like set up, match, ace and luv be so competitive? Ask the thirty SCSC members who competed in the annual spring tennis tournament held at Chancellors Racket Club on Sunday, March 27.

The munchies were good; beer and soft drinks flowed freely. It was a super way to spend a Sunday afternoon.

Winning the First Flight were **Janice Hagger** and **Bob Frazier** with **Judy Feufe** and **Craig Laughan** as second. The Second Flight was won by **Jane Kearby** and **Jerry Montgomery** with **Edith Lewis** and **Lee Bollinger** as second. Third Flight winners were **Linda Levens** and **Gene Turboff**. **Yvonne McMahon** and **Charles Goodrich** were second. - **Bob Frazier**

# CONTINUOUS SNOW BEFALLS SKIERS IN PURGATORY

by Harold Eaton

The 42 intrepid skiers who left Houston on March 15 expected to spend a warm week in Purgatory getting a tan while skiing spring "ego" snow. Instead, the TSC satellite trip was cursed by virtually continuous snow. Poor skiers!

Everyone knows getting to the airport on time can be a problem. Ah, but not for resourceful types like **Roger** and **Monica Williams** who camped out at the Airport Hilton the night before along with honeymooners **Diane** and **Steve Benson**, **Judy Rogers** and "honest" **Carol Lohr**. Carol's only problem with the hotel was getting them to accept payment for her room.

The bus ride from Albuquerque to Durango gave all a chance to get well acquainted, especially with new member **Janice Japp**. At least now when talk turns to "the road to Albuquerque," 42 of us can say we've been there.

A hearty handshake goes to **Brenda Fleming**, **Kathleen Fleming**, **Susie Hebert** and **Jo Beth Isham** who got right off the bus when we got to

Tamarron Resort and into their togs for a round of tennis under the big top.

Wednesday morning saw **Robert Gerrits** and **Carl** and **Rose Hock** leisurely eating breakfast while **Jim Gabbard** and **Arlen Isham** rushed madly to catch the early bus to the mountain. Trip Chairman **Sadie Madole**, **Lou Erdelyan** and **Steve Glenn** wanted to try helicopter skiing but thought their pilot should be able to see where he was going since the heavy snowfall, which continued through the weekend, was affecting visibility.

Congratulations are in order for all who raced, especially **Duke** and **Virginia Walker**, for whom it was the first time. A special thanks must go to **Ronnie Fleming** and his trusty assistants for coordinating the racing activities. Although SCSC came in third, many of our racers received awards.

Silver medals went to **Bob Cumming** and **Steve Glenn** and bronze medals went to **Harold Eaton**, **Ron Garner**, **Arlen Isham**, **Cecil Smith** and

**Steve Benson** who also got a gold medal in a NASTAR standard race.

The "What lift line?" award goes to **Berwin Price** and **Harry Melnick** for trying to fit five people into a three-man chair and **Doris Hemsworth** gets the "Courage beyond the call of duty" award for venturing onto a black run the last day.

Of course, life at Tamarron itself wasn't all that dull. There was the snow angel patrol who led semi-clad hot tubbers out nearly every lodge door in search of the perfect snow angel.

Night life was pretty much contained to Tamarron; however, **Gene Holland's** efforts at finding a restaurant that would come and get 16 adventurous, transportationless skiers was appreciated.

The highlight of the trip was the escape to Durango on St. Patty's Eve. Unfortunately, the bus was returning (Boo! Hiss!) at 11 p.m. and, worse yet, the driver couldn't be bribed, right Steve?

Many found their way to a local

Special thanks to all those who helped in preparing goodies for the bus home. **Andrew Broadbent, Craig Laughlin, Chris Lache** and others helped with sandwiches while **Pam Garner** and **Ann Brod** popped 10 gallons of popcorn to munch on.

In the end all 42 participants deserve a hearty round of applause, because it was due to everyone's unflagging willingness to lend a hand and participate that made this trip a success, or for that matter, even possible.

# Debbie & Dick

## MARKEMAKER

by Phyllis C. Sysak

Selected by the Board of Directors for their energy and enthusiasm, as well as organizational skills and proven interest in SCSC, Debbie Ball and Dick Howard will serve as Trip Directors for the 1983-84 year.

Upon meeting them, it is hard to believe the blond, blue-eyed Debbie was skinny and bashful and that bearded Dick once played a tuba in a marching band. These are just a few of the many facets of these two very special people.

Far-from-shy-now Debbie is a native Texan who has lived inside the Loop since 1977. When she first moved here from hometown Port Arthur, she taught middle school math. Although Debbie "always wanted to be a teacher when I grew up," she now enjoys working as a rate analyst for Texas Eastern Gas Company.

Maybe it is her past connection with teaching that keeps Debbie working with children. Many youngsters know her as a volunteer Special Olympics bowling, track and field coordinator. This year, Debbie also volunteered to work on a "jog-athon" to raise money to send 100 Special Olympics athletes to their international games in Baton Rouge.

An interest in sports led Debbie to join SCSC in 1980. A first, tentative, hour-and-a-half (can we really call that a "run") voyage down the beginner slope at Alta didn't discourage Debbie from trying skiing over and over until she got it right. Debbie has graduated from green slopes to blue,

although she still sometimes forgets which boot goes on which foot. (She never forgets to wear her flowered longjohns, though.)

On her Copper Mountain ski trip this past February, Debbie had several new experiences: NASTAR racing, ski-instructor lap-sitting, and slalomming under the influence of Coors.

Skiing is not Debbie's only interest. Racquetball, balancing income and expense forms from her Copper Mountain trip, Macho and Simon (her "little boys" - a Chihuahua and cat, respectively), and leisure learning classes in stocks/bonds and Spanish have been other pursuits.

But sometimes, Debbie sits quietly, soft classical music drifting through the room, thinking of the mountains. Then a smile curling on her face, her pale blue eyes grow misty as a dawn on a February morning at Lake Tahoe.

Dick, a stalwart Houston Cougar fan whose eyes frequently smile, really CARES about people. This is one fella who makes a conscious effort to

know others, make them comfortable and encourage them to get involved.

When not participating in SCSC activities, Dick can be found sailing, stomping to a bluegrass beat, canoeing, camping, falling off chairlifts (Dick estimates 3,000 falls), hiking and playing tennis. This Binghamton, New York-born SCSCer has also led the TGIS Outdoor Adventure Group on two or three activities each month for more than two years.

As far as skiing goes, Dick likes to dress properly. He dons jeans (if it's not snowing) when the

temperature soars above 10 degrees F, a well-loved, stretched-out seater, a particular "Kerrville Bluegrass Festival" hat, and his "Damn I'm Good" button. Here's where his beard comes in handy. It evidently acts as a muffler even when frozen, to keep out frosty breezes and protects his chin during face plants.

Dick is sure of his skier ability. He says he knows he's in trouble when he starts looking for "nice" places to fall. Dick has been skiing since the early 1960's and can point out all those "nice" places at Greek Peak, Aspen, Snowmass, Vail, Jackson Hole and Sun Valley. Beaver Creek has especially "nice" places according to this cheerful soul.

Debbie and Dick are looking forward to the coming year as Trip Directors. As SCSCers, they feel they can promote the best activities at the most reasonable rates and are proud to serve as D's of T's. Both see a redefinition of their tasks. The difference will be their participation in and personal commitment to decision-making activities involving various club events.

# VAIL SKIERS SPEND WEEKEND IN DENVER AIRPORT

by Pat Burchett, Dick Howard & Carolyn Lowrie

At first it seemed like your typical perfect SCSC ski trip....the flight left on time and everyone made the flight (amazing for 8 a.m. Sunday morning). No luggage was lost, although **Jackie Zipp's** antique ski boots "walked" off on the way to the bus.

Lynne and J. J. Johnson were the perfect hosts at the Engian Lodge and Robert Barker was your typical handsome ski instructor for his "Focus on Vail" presentation at our first party. (Most folks were more interested in consuming the free wine and goodies than listening....in typical SCSC fashion.)

The memories of the great skiing were....well memorable: **Glynda Pryor's** instructor told her not to worry, he could get out of her way; the last words he heard before she ran over him were "Geronimo!" **Jim Hines** learned a new way to ski....backwards.

**DeDe Randall** learned that a "head plant" is not the kind you water. **George Hirasaki**, **Art Camero** (Cliff Hanger or Hang Glider) and **Bob Copple** challenged the "Birds of Prey" at Beaver Creek....the score, Birds 3 and SCSC 0. Trip Chair **Dick Howard** demonstrated his infamous 1½ twist double release ten seconds into his very first run ever at Beaver Creek.

The "not ready for the Olympics" SCSC Vail Ski Team challenged Vail's NASTAR run in a blinding snow storm. Medal winners included **George Hirasaki**, **Terry Chamness**, **Bob Copple**, **Pat Snell**, **Flo Prince**, **Margaret McDonald**, **Les Tompkins**, **Art Camero**, **Jackie Zipp**, **Roy Caviness** and **Robert Till**. Eleven medals with 14 starters isn't bad. **Peggy Bailey** won the prize for the "most improved time" during her second run.

The food at Vail was great as expected....well, with the possible exception of Jackie Zipp's world famous mashed peanut butter and jelly sandwich. **Randy Butler** admits that spaghetti squash looks like shredded cheese, but on your baked potato? **Liz Copple**, was it butter or batter?

**Roy Caviness**, our Vail restaurant guide, didn't go wrong on his leadership to the Left Bank and now he's famous for his saying, "Eat more beavers, save the trees!" **Roy** and **Marcia Davis**, after dining with an intimate group of 11 the first night, found **Cyrano's** very romantic just for two the next night.

The parties and comraderie also seemed great for a perfect ski trip. Lots of "Mash" parties on Monday night all over Vail. The Inkspots performed, although some thought **DeDe Randall's** version of "If I Didn't Care" was just as good. **Ann McGowen** found new friends from Newport Beach, Ca.

**Joan Chasan** reported roommate **Kay McKeaugh** as a missing person. **Brenda Bennett** was "lost" for a night but didn't know it (and didn't care!). **Jay Talus**, **Dick Howard**, **Joan Whitten** and **Patrick Snell** spent their evenings hanging out at the Ore House with "Timothy and the Rural Route."

**Ike Hoffman** said he would lie in bed naked all day to prevent the wine and cheese party from being held in his room. **Bill Sebastian** took lots of "silent pictures." **Gail Bernstein** made a fantastic presentation of our club pin to our new-found Australian friends **Ross** and **Barbara Radford**, but when seeing the bill for dinner at the Vail Athletic Club, did not know whether to stick them with the pin or the bill. Sounds like a perfect ski trip, doesn't it?

Then things started to go wrong. Upon arrival at the Denver Airport for

All Photos Left to Right

the return home, the airport closed and all flights were cancelled.... something about there being too much snow. **Donna White**, **Jay Talus** and **Carolyn Lowrie** hit the phones "to find lodging." Bus driver, **Scott**, found us rooms at the Travel Lodge....five rooms for 40 people....cozy, huh?

Our arrival at the motel panicked the waiters as everyone headed for dinner. Everyone pitched in to help....**Daisy Mitchell** and **Ann McIntyre** headed for the bar and **Bob Copple** trained as cocktail waitress. **Sarah Zelli** was ready to head for bed until she found a hot card game.

On Sunday it was back to the airport to play the standby game. **Joe Zelli** was "standing by" in the beer line most of the day. **Don Cherry** soothed us with poetry and wit and **Patsy Feigle** "counseled" the mentally fatigued. **Jan Sebastian** worked the standby lines.

Assistant Trip Chair **Pat Burchett** recruited five Continental Airline pilots to fly us anywhere....slight problem....they had no planes to fly. Finally, Space City was called to a roar of applause and cheers. **Cliff Budd** awarded his collection from the "when the hell will we ever get out of Denver" pool to winner Glynda Pryor

with the correct 8:45 p.m. take off time. **Dick Fruth** and **Mary K. Nicholson** left Vail a day early and got back a day after the rest of us. How did they do that?

The perfect trip....except it was one day too long.

## IT'S ABOUT TIME!

It's that time of year again, but it got here a little early this year. What time is it? It's time to renew your SCSC membership.

With the By-law change of last year, all renewals must be received by May 31. Members who do not renew by the deadline will be dropped from the membership roster and vacancies will be billed from the waiting list.

Any renewals after May 31 will go to the bottom of the waiting list and we will have to ask you for another five dollars for a processing fee.

Look for the drop box at the membership table at the May meeting or fill out the membership form that is included in this month's **Sitzmarke** and put it into the mail TODAY.

It's about time to renew your membership, but don't procrastinate.

level of involvement you can contribute. Be sure to check a box on your membership application to volunteer for our coming year, or contact one of the officers or committee chairpeople and let them know you are interested in helping.

For those who feel left out at meetings or parties or think the meetings are just cocktail parties or "meat markets," get involved by volunteering and soon you'll find your circle of friends has noticeably expanded and the meetings will be a time to accomplish constructive business as well as have fun.

The new executive committee and I thank you for the opportunity to serve you this year. We're looking forward to an outstanding nineteenth ski season for SCSC!

# Skiers Confront One-Armed Bandits Enroute to Mammoth

by Kathy Myers

On March 27 thirty-four formerly solvent, slightly inebriated and totally exhausted skiers returned from nine days of gambling, partying and skiing in Reno and Mammoth.

It all began early March 19 when Trip Chairman **Ray Hodge** began checking people in and realized he had forgotten his skis!! Fortunately, he didn't forget the booze. Linda Licarione came straggling in just in time to board. We should have realized then how Linda would be operating the rest of the trip.

You could hear everyone's pockets jingling as we deplaned in Reno. Once we gathered the luggage and tore **Kathy Triplett** and **Daisy Mitchell** away from the one-armed bandits in the luggage area, we headed for the MGM Grand Hotel.

Once inside the hotel everyone scattered to see how fast they could part with their money. I'm sure **Eric** and **Shirley Holm** are still having slot machine withdrawal. **James Dickson** enjoyed harrasing all the black jack dealers. **Clydell Williams** was on a hot streak at the craps table with **Andrew Johns**, **Dave Harvi**, **Richard Hazel** and **Randy Parker** looking on.

**Linda Licarione**, **Dana Wardell** and **Kathy Myers** masqueraded as the Three Musketeers at the black jack tables. **Angie** and **Duff Trimble**, **Susan** and **Peb Rock**, **Michele Lamb** and **Merlin Harger** went to see the "cleaned up version" of "Hello, Hollywood, Hello."

**Margie Fanette** and **Ruth Billings** took off for a day of skiing at Heavenly Valley the minute they got off the bus.

Everyone was prompt about our bus departure the next day to Mammoth, except **John** and **Pix Cook** who came stumbling out twenty minutes

late explaining John had finally hit a hot streak playing baccarat - \$15 -BIG DEAL! We finally boarded the bus and began to play bus wheel roulette. **Chuck Guffey** couldn't understand why he couldn't play for fifty cents instead of a dollar.

We arrived in Mammoth Lakes late afternoon and *tunneled* through the snow to our condos. The skiing

was great in Mammoth. We started out with a 200" base and ended up with a 225" base. With 28 lifts and over 100 runs, it offered a wide variety of skiing for beginners, intermediates and expert skiers.

Ray Hodge set a SCSC record, 16 skiers in one jeep. Of course, **Bert Lary** and **Suzan Volz** had to sit on the tailgate and look over the

top with their goggles on.

Wine parties in the hot tub were plentiful. **Ken Moredock** stood out in the hot tub with his Cossak hat. **Ann McIntyre** (Goldilocks) didn't frequent the hot tub without a towel on her head after the first time. Ask Ann about her hair!!!

Snowball fights were abundant in the hot tub and we usually ended up running out the locals. One local "showed" us what he thought about us obnoxious Texans as he departed the hot tub area. WOW!

Dana Wardell discovered a new drink, thus her new name, "The Kamakazi Kid." **Tom Wardell** skied down a gully and found a tree that "tickled his fanny." Susan Rock could be seen everywhere in her striking periwinkle jumpsuit and her bright yellow camera "flashing" everyone. Angie Trimble learned a new expression. What was that again? Haul a —!

**Bryan Siegel** came prepared with communicators which he and Duff Trimble used to herd all the girls together. **Bob McAnelly**, Tom Wardell and Kathy Myers were seen laying in two feet of snow, skis propped up so the snow cats would be able to see them, drinking tequila out of Mac's

ski poles and singing "Jose Quervo."

The last evening in Mammoth we handed out Easter eggs to everyone with the name of a ski run we had named after them....can you guess who Soap Opera Drip, Kodiak Kid, Pipe Shoot, Powder Pix and Gator Man were named after?

Assistant Trip Chair Kathy Myers was awarded a beautiful new "ski hat" that caught many stares in the airport. Spirits were high the last night as **Suzanne Siegel** found the "Rock" she thought she had lost.

We almost left James (O.C.) Dickson and Ken (Cossak) Moredock in Reno, as they HAD to hit the tables "just one more time." We all waved goodbye to our money one last time and wondered why WE didn't put a "limit" on ourselves. We were having fun then!

## ROOMMATE WANTED

That's right! The rumors are all true....I need another roommate. The last one didn't say anything about the whips and chains....or the small animals....but the screams in the middle of the night were too much to take. So, if you're not faint of heart, and you do need a place to stay, call John Hargleroad at 443-2000 (O) or 524-4141 (H). No girls under 12 need apply; must have shots; male or female.

# WHAT SKIS SHOULD AND SHOULDN'T DO

The language of ski performance is neither exact nor well-defined. As a result, communication between skiers is often less than precise. However, here are some of the most often used words with their most often intended meanings.

**Neutral**—A ski performs best when it is neutral. It behaves exactly as expected when handled by a

good skier. It neither oversteers nor understeers.

**Oversteer**—A ski is said to oversteer when it continues turning of its own accord, especially as you guide it off the fall line. Such skis are sometimes said to be "hooky."

**Understeer**—A ski is said to understeer if when it is turned from its original direction it tends to continue moving in that direction even though it is no longer pointed that way. An automobile, for example, understeers when the front end breaks loose—continuing in a straight line—from the curve you steered it in.

**Washout**—Less-discriminating skiers say a ski washes out when they can't make it hold a carving rack. More-discriminating skiers will specify whether it is the tails that wash out—similar in effect to the fronts being hooky—or whether it is the fronts that wash out, which is understeer.

**Chatter**—This word is often confused with "clatter." Clatter is simply the noise made when your skis bang together, especially during a turn. Chatter also occurs during a turn, but it is more serious. Chatter occurs when the skis alternate very quickly (several times per second) between carving and skid-

ding. It's a sort of unwanted, intermittent, rapid biting and releasing of the edges, which is both tiring and inefficient. It occurs while turning on hard snow when you are going too fast for the skis to hold your desired curve. The skis might chatter because they are too short for the speed at which you travel, or too stiff.

## YOU NEED LONGER SKIS IF:

- You tend to fall over backwards often.
- Your skis wobble and clatter a lot, making a steady balanced stance difficult.
- The unsteadiness of your skis increases as your speed increases.
- Your skis are so easily started into the turns that you often seem to turn more sharply than intended.
- It's difficult to vary the radius of your turns, and especially to make smooth long-radius turns.
- Turns are easier to start than to finish.
- You are not able to keep up with skiers of your own weight while schussing easy slopes.
- You pitch back and forth with a sort of uncomfortable bucking motion when skiing over small bumps.
- You are not making any learning progress.

## YOU NEED SHORTER SKIS IF:

- You find it especially hard to ski big moguls.
- Every turn is an effort, especially at slower speeds.
- You have to unweight your skis substantially for each turn.
- Your legs get tired easily, even though you are in reasonably good shape.
- You have difficulty making short-radius turns at any speed.
- Skiing seems to take too much physical exertion, and is too fatiguing.
- You are not in as good shape as you used to be, your legs especially being weaker.
- You are concerned about injuring yourself.
- The skis more often control you, rather than vice-versa.
- Your turning skills don't seem to be improving.
- You get moving too fast too soon on steep slopes.

## APRIL MEETING HONORS VOLUNTEERS, OFFICERS

*All photos left to right:*

Incoming officers for 1983-84 were introduced at the April Meeting. They are Tania Andrasko, president; Jean Walke, publications vice president; Kay Broad, program vice president; John Cook, trips vice president; Art Camero, treasurer; Karen Friedsam, secretary and Glenn Bishop, membership vice president.

Jan Livingston contemplates whether skiing is really worth all of its potential discomforts.

Tania Andrasko presents Bruce Maughs with a sports jacket in recognition of his service as SCSC president for 1982-83.

Bruce Maughs shows off the locks of hair Kay Broad presented him as a gag since he seems to have very little of his own.

Volunteers receive SCSC mugs for their work during the year. Front row, George Hirasaki, Art Camero, Kathi Vogel, Ray Naudain. Back row, Joe Assad, John Coldin, Lori Schaeffer, Linda Licarione.
