SPECIAL PROGRAM NEWS RELEASE

We have been successful in securing this season's outstanding ski show. Next Monday night, January 10th, ERICH WINDISCH, General Manager and Director of the RED RIVER SKI AREA will present his famous skiing exhibition on his own specially constructed ski ramp. Mr. Windisch will concentrate on the American Technique style of skiing, fast becoming the most popular in this country. In addition, Mr. Windisch will discuss in detail ski equipment (boots, skis, bindings, and poles), physical fitness, clothing and common skiing mistakes and how to correct them. An opportunity will be provided for open discussion.

Not only does this program promise to be the most entertaining of the season but it also promises to be of great benefit to all skiers particularly novice and beginners. We know you will not want to miss this fine program so bring your friends and we will see you next week at the Sheraton-Lincoln.

Till then,

THINK SNOW !!!
