

## PARK CITY III

by Don Crabtree & Gary Sequeira

After a late night flight to Salt Lake City and a thirty minute bus ride, some 60 tired but jubilant skiers arrived at Park City, Utah for four fun-filled days of skiing and partying. Later that morning early risers **Sharon and Gary Sequeira, Kathleen Hannaman and Pam Taylor** began preparing the stuffed croissants, coffee and rolls, thus turning Gary's condo into a veritable *TODDLE HOUSE*! **Bill Kirk and Ken Oldroyd** both gagged after biting down on what turned out to be tuna fish croissants that had inexplicably found their way into the packages marked ham and cheese. Bits and pieces.....**Jeri Hartman** yanked down **Charles Luschen** while attempting to help her up after a nasty spill. Thanks a lot, Jeri! Ask **Lori Matthews** about her bruised left cheek.....**Crazy Dave Feedback** claims he really ain't crazy - does this make him a misnomer or an oxymoron? After the official SCSC Party, **Karen Putney, Gayle Norris, Peggy Schillinger, Elaine Matte, Nelson Turner** and others did the *Shuttle Bus Shuttle*, singing and dancing to "YMCA" and ended-up missing their bus stops more than once. I hear that **Joyce Keppinger** gets up at five o'clock to put on her makeup, even when she skis. Wonder why **Michelle Fisher** and **Becky Savoie** say they'll never again ski down "King Kong"?

**Dennis Woronuk** literally flew the night fantastic after winning a helicopter flight at the TSC Awards Banquet. I'm proud to report that **George Hirasaki** took first place and **Nelson Turner** third in the NASTAR Individual races and were awarded medals in front of the whole darn Texas Ski Council! Way to go fellas. **Ron Honefenger** is also to be congratulated for his fine performance in this event. Also seen celebrating at this party were; **Dave and Roz Clayton, Steve Rampton, Judi Hendrix, Sandy Fowler, Maureen Webb, John Morley, Hartley Chelin, Gary Butler, Charles Butler and Brenda Bennett.**

It seemed like the "LOST WEEKEND" for the Boyd family. First, son **Scott Boyd** lost a suitcase at the airport (found it later), then the next day both he and friend **Anne Parsons** had seemingly skied off of the face of the earth as father **William Boyd** searched and searched only to encounter them at dinner that evening. Mom **Linda Boyd** (a real absent-minded professor) managed to misplace her purse but did not realize it until the end of the day. After phoning almost every place she'd been that day, she called the Deer

Valley lost and found and sure 'nuf, her purse was there, waiting to be claimed and inside it was the \$500.00 in cash she had placed there earlier that morning! In another family ski gathering **Sue Barnett** was glad to see son **Mark Barnett** and daughter **Amanda** who reside out of state. **Mark** skied the bumps and cornices with **Steve Benson** at Snowbird while **Sue** and **Amanda** took it easy on the mid-mountain lounge chairs.

I understand that **Larry Rapp** had a hard time deciding whether to sleep or ski! .....**Harry Melnick** was known to his condomates as a walking drugstore, taking almost ever possible ointment, antidote, pill or bandage for just about any ailment. (Small wonder, I understand he actually owns two drugstores). **John Guidry** was beaming after skiing on his first SCSC trip and said he now has many new great friends as well as great memories. **Melinda and Peter Coulter, Normond Rund, Linda Henry, David Grissom and Tommy Thompson** were all amused as **Jim McLaughlin** constructed his infamous x-rated balloon toys at an 'apres ski gathering. Mishaps..... **Bill Dahl**, while taking a short-cut through the trees, cut short his skiing when an ornery Aspen failed to yield and, you guessed it! **John Baron** took a bad fall and cut his chin. Wife **Carol Cain** summoned the Ski Patrol and **John** was escorted down in a stretcher. He was not seriously hurt. **Anita Gentry, Gloria Lopez, Susan Gaucher and Linda Southern** were determined to enjoy a warm fire in their condo in spite of not finding the fireplace flew handle. After filling their livingroom with smoke, they vowed never to play with matches again. **Bill Landfield, Lou Kleinman, and Chuck Gore** almost missed the bus to the airport as they seemed more interested in watching the NFL Playoff games than returning to Houston Sunday morning.

After all said and done, it was another exhilarating, fun packed ski adventure and I'm sure we all look forward to next year's TSC Traditional!
